

# Collection Bag

## Instructions For Use

[www.XSscuba.com](http://www.XSscuba.com)

The Collection Bag is ideal when freediving for lobsters, abalone, scallops or other sea floor treasures. This mesh bag is 39" (99 cm) in length and attaches to the underside of your UFO. It has two drawstring closures; one at the top and one a third of the way down.

### Installation

Simply attach the four Collection Bag clips to the 4 D-rings on the underside of your UFO (Fig. 1). It is normal to stretch the bag taut to secure the last clip.
