

DIN FILL ADAPTER

SPECIFICATION SHEET

The XS Scuba DIN Fill Adapter is useful when a fill station only has fill whips with dedicated yoke connectors. It presents a quick solution to allow your dedicated DIN valve to accept a yoke connector.

- *Adapt DIN valves for filling with a standard yoke filler*
- *Standard DIN thread – 5/8 – 14 TPI BSP*
- *Fits all 200 and 300 bar DIN valves*
- *Rotating DIN handwheel*
- *Standard inlet and outlet O-rings (p/n VP15-V)*
 - *Viton O-rings*

ABOVE WATER USE ONLY

This adapter is designed to allow the filling of cylinders with 200 and 300 bar DIN valves from standard yoke fillers.

3442 PSI MAXIMUM
